Some ingredients may have an undefined value for some nutrients. This results in the value being treated as zero which may result in the value being under-reported. Also many nutrients are typically and safely many times higher than the minimum requirement. If additional information about a particular nutrient amount is needed and you are a veterinarian, please contact us.

\*These “% calories” values are better for comparing diets, but different from “% as fed” values found on pet food labels. To convert pet food labels, use the free online “Guaranteed Analysis Converter” available under the Support tab. Please see Cautions in recipe reports for additional important information.
